AUTONOMOUS DRIVING & ETHICS

In this course, you will learn about how self-driving cars work and you will take a crack at your very first autonomous vehicle project - finding lane lines on the road!

**Basics of computer-aided image processing.** (Prof. Quevedo, UWP).

During this course the participants will be taught the basic functionalities of the programming language python. Based on the application of computer-aided image processing, the participants gain in-depth knowledge in dealing with image information and its evaluation. This basic knowledge serves as a link to the lecture "Introduction to autonomous driving & ethics".

**Introduction to autonomous driving & ethics.** (Prof. Kreyssig, Ostfalia).

During the lab sessions, participants can apply their acquired knowledge in practice and design their own autonomous vehicle. The lecture will teach disciplines such as a fusion of sensor data, localization, path planning, control, and system integration.

This ISU will be credited with 5 CP (EU).

EXCURSIONS AND FIELD TRIPS

125 years ago German pioneers invented the automobile. Today Europe's largest car manufacturer Volkswagen is located in the region of Ostfalia. Meet workers and engineers at the assembly lines and inspect the latest models of Volkswagen.

- **Wolfsburg:** Volkswagen Factory Tour and Autostadt
- **Berlin:** Sight Seeing Tour Berlin and Potsdam
- **Bremerhaven:** German Emigration Center
- **Wolfenbüttel:** Town walk and Duke August Library
- **Braunschweig:** Town walk, Gauss Birth place

**Berlin, capital of Germany**
