Digi-Lance4SE
Learning Centers for Social Entrepreneurs
in the digital era

Issue No. 1 • March 2022

Project Objectives

PO1 will develop social entrepreneurship approaches and quality training for adult learners

PO2 will improve social entrepreneurial competencies between partners, staff, educators and social entrepreneurs

PO3 will establish an online network for adult educators, trainers/mentors to share eLearning resources, experience and best practices

PO4 will create a transnational network of adult learning centres to strengthen co-operation and networking for organisations promoting social entrepreneurship and supporting adult learners

Project Kick off in Wolfenbottle

• *Wolfenbottle town*

The Partnership held the inaugural meeting of the Digi-Lance4SE Project in Wolfenbottle in January 2022.

Despite the ongoing challenges of the Covid-19 pandemic, all partner organisations were represented at the venue in the Ostfalia University, for two days intensive training and development activity.

The Partnership explored the opportunities the new project was offering to staff, educators and adult learners and how it would help to advance the concept of social entrepreneurship across the EU. The partnership will deliver three 'Project Results' outputs, including a trainers toolkit, eLearning, innovation booklet and networking for adult educators.

Partners

Zoom Meeting

As well as our meeting in Germany, the partnership has met online to ensure the project runs smoothly and all activities for project results are planned and completed.

The most recent meeting was a catch up from our face to face meeting and discuss the evaluation results.

All partners returned positive evaluations and looking forward to more successful zoom and face to face meetings.

The Project

What is
Digi-Lance4SE

LeArNING Centres for Social Entrepreneurs in the Digital Era
The main project objective is developing social entrepreneurial approaches based on digital solutions, a practical training programme for adult learners and interactive training resources to improve competencies of adult learners, by involving partners coming from an academic field, private and civil society representing Western, Central, Eastern European Countries

Project Objectives

Project No.: 2021-1-DE02 KA220-ADU-00003571

• Project on a page

The main project objective is developing social entrepreneurial approaches based on digital solutions, a practical training programme for adult learners and interactive training resources to improve competencies of adult learners,

by involving partners coming from an academic field, private and civil society representing Western, Central, Eastern European Countries. The second project meeting will take place in Suceava, Romania in June 2022.

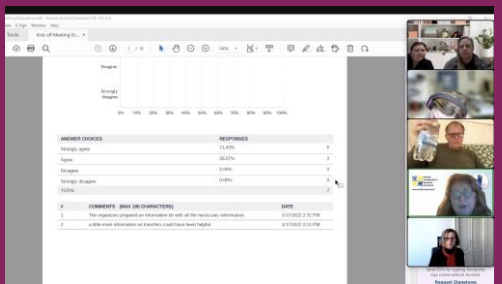

Our Next Transnational Meeting

Our Next Meeting will be held in the beautiful Suceava Romania.

This meeting will see us spending a lot of time on our next lot of activities in regards to the start of our innovation book.

This is the main Result of the project and will help prospective entrepreneurs develop their skills allowing them to run their own Social Economy business.

Face to Face meetings allow the partners to share best practices from their country.

The Partnership

Ostfalia counts among the biggest universities of applied sciences in Lower Saxony. Ostfalia promotes and supports an important variety of international activities. The *Entrepreneurship Hub* supports students, alumni and scientific employees of Ostfalia, TU Braunschweig and HBK Braunschweig who are interested in starting up a business.

Ostfalia has an outstanding expertise due to seven focus research areas and takes part in many international research and other projects. It cooperates with both companies and the public sector. The projects develop new, broad-based solutions for regional and national needs. Ostfalia is a member of [FHnet](#), a network bringing together all the 23 universities of applied sciences that participate in the EU-Strategie-FH programme.

Gifted Ireland Dublin

At Gifted Ireland we believe in breaking down barriers to empower individuals and organisations to achieve more than they ever thought was possible Our team are encouraged to come up with innovative ideas which expand thinking and contribute to our ambition of offering learner focused training throughout Ireland. Innovation paired with optimism and growth are key and from sharing our knowledge across teams we have developed a diverse and varied menu of both virtual and blended learning solution.

By providing an enjoyable, stress free environments with space to learn, individuals are able to learn at their own pace. With this in mind each course will have a bespoke delivery method which has been carefully chosen to ensure both a quality learning and assessment experience. These delivery methods are; Scheduled Virtual Course, Flexible Virtual Course, Blended Course and Face-to-Face delivery. For more information on what each delivery method involves, visit our delivery methods information.
