

University offensive: eMobility for further training and continuing education
- experience and learn about electric mobility! **Mobil4e**

Project management:	Prof. Dr. Thomas M. Cerbe, Prof. Dr. Ekkehard Boggasch, Prof. Dr. Martin Könemund, Prof. Dr. Robin Vanhaelst, Prof. Dr. Gert Bikker, Prof. Dr. Christoph Menzel
Summary:	In the "Mobile4e" research project, a range of multi-university, modular further training and continuing education courses in the fields of electro-mobility are being created in Lower Saxony's electric mobility shop window. The two-and-a-half-day continuing-education courses provide hands-on tutorials, case studies and integrated labs on the current state of science in the field of electric mobility.
Funding:	Federal funding Federal Ministry for Education and Research
Duration:	2013 – 2016
Funding amount:	€622,592
Organisational unit:	Faculty of Transport-Sports-Tourism-Media, Faculty of Supply Engineering, Faculty of Automotive Engineering, Faculty of Computer Science/IT, Faculty of Electrical Engineering
Research area:	Intelligent Systems for Energy and Mobility
